VRasa

DACHHU

VR - A stable Wifi capable of accessing VRchat. The space is always live on VRchat, having VR headsets to access is usually the limitation. I only have my own VR headset, but I may be able to acquire some form DMU at specific times. It can also be accessed on Desktop app.

VRasa is a VRchat theatre space inspired by the ancient sanskrit theatre treatise, the Natyashastra, and the 7th century play bhagavadajjukam, a VR space designed as a performance workshop tool to explore liminal processes.

For this event attendees will be invited into the space in VR and shown around the space engaging into the interactive elements.

(Maybe due to nature of tech, their can be a couple of timed events, maybe 2, 2 hour experiences/times?)
