

Sound

LCB Depot's exhibition & events programme highlights work from a different creative practice every month. In September 2022 the focus is on sound including sound art, audiovisuals and music.

Work is exhibited across the site and online from **September 5th - 24th June 2022, Mon to Fri, 9am - 5pm**

Micro Phonies

Found Object

An evening of electronic music produced entirely on a phone

Found Object is a Leicestershire-based electronic musician who produces all of their music using only their cracked iPhone 6S and an unstable app called Beat Wave. They have released 8 albums since May 2021 (yes really), and their recent diagnosis of ADHD may have something to do with that. This performance is designed to show what can be done with very little technology and some creativity. Hopefully, it will inspire other techno-phobes to have a go at creating their own sounds. The performance will last up to 40 minutes (tbc)

Free

Artist Bio

Now in my mid 50s, I have been interested in music forever, always with a special place for electronic music. As a 10 year old I heard Wendy Carlos, Kraftwerk, Tangerine Dream, Tomita, Vangelis and Rick Wakeman and I've been fascinated ever since. I've been a rock drummer and an acoustic singer-songwriter and now I produce electronic music exclusively. Over the last 20 years I have had mental health issues including depression and anxiety and I was finally diagnosed with ADHD last year.
